**Advanced Maintenance Solutions, LLC® Achieves both CIMS Certification and
CIMS-Green Building, both with Honors**

*AMS joins an elite handful of cleaning organizations to certify to the ISSA Cleaning Industry
Management Standard (CIMS).*

Neenah, Wisconsin, August 3, 2017- ISSA, the worldwide cleaning industry association, announced today that **Advanced Maintenance Solutions, LLC®** has been awarded both the ISSA Cleaning Industry Management Standard (CIMS) and CIMS Green Building (CIMS-GB) certifications, both with honors.

ISSA has created the CIMS and CIMS-GB certification as the most recognizable industry stamp-of-approval to identify cleaning service providers who are true companies of excellence and committed to customer satisfaction. CIMS certification is a rigorous program that sets a new "standard" of excellence for building service contractors. CIMS provides industry-recognized, third-party analysis and validation of an organization's achievement regarding quality and process improvement. The standard is strongly supported by the International Facility Management Association (IFMA).

The Green Building certification of CIMS (CIMS-GB) focuses on the delivery of an environmentally-preferable and sustainable cleaning service. This certification complies with many criteria of the LEED for Existing Buildings: Operations and Maintenance (LEED-EBOM) Green Building Rating System, while greening operations overall.

As one of only a select group of CIMS certified organizations worldwide, this achievement sets AMS apart in their commitment to: quality and service excellence, efficient and sustainable

operations and cost-effective solutions. CIMS certification is required in many cleaning service bid specifications as customers look for an effective way to identify high-quality providers that are committed to customer satisfaction.

“We are thrilled to have been awarded full CIMS certification, it truly validates everything we’ve worked so hard to accomplish.” says Christine Schad, President and Founder, AMS, “Any organization can **claim** that they are dedicated to quality and customer satisfaction, but AMS is now positioned to show that an independent, accredited assessor has reviewed our organization’s management and operations systems and verified compliance.”

About Advanced Maintenance Solutions, LLC®

Advanced Maintenance Solutions, LLC® (AMS) has provided a full spectrum of janitorial service solutions to commercial businesses throughout Northeast and Central Wisconsin since 1992. From their humble beginnings as a mother of six’s part time housecleaning business, AMS has grown and evolved to be a respected leader in the janitorial industry. AMS is also recognized as a Minority Business Enterprise and a Wisconsin Woman Business Enterprise, an IICRC Certified Firm, and has earned some of the highest certifications in the state for professionalism, service excellence and integrity.
